ONE

Marlon or Anastasia?

On last days, we can see a different thing about the teacher of "Studios Socials", that problem is about the last teacher Marlon Miranda that decide to quit of teaching us because have a lot of problems with the students and also with the

is "Anastacia López". Now we only have one class and he decide to give that classes with so much responsibility because "bachillerato" is almost near.

The principal principals of the school had

major of the high school.

In the last class he said to the students that was difficult for him staying teaching to the students because the results of the tests was so bad and he don't have the qualities that need a teacher to help students of eleven grade to win the "bachillerato" test.

Replacing Marlon Miranda come to the secondary one of the teachers of primary, her name

said that the new teacher of "Estudios Sociales" have a lot of abilities and they are sure of that the generation will win the test and also the most important of them that is "bachillerato" test.

About Marlon we think that he do fine with us, only accepting the responsibility, for this is that we the producers of the Eleven One give a lot of thanks.

The teacher's Work

In this year 1998, the generation 98, our generation, the 11 grade, had to special people. This people, are the different class teachers that every day they try to make the best of them.

Some teachers are: the math teacher Liliana Jiménez, the Christian teacher Gustavo Soto, the sicmath teacher Elizabeth Cruz, the panish teacher Roxana Cordero, the iologist teacher Betty Acuña, the hilosophy's teacher Luis Herbozo and more special teachers like the nglish teacher Mirtha Acuña.

All the students of eleven

grade is so expressing thanks to them, because we can see the work of them.

Of the generation 98, we only like to say that they are the best teachers of the world, the more special people, so thanks for them work, the dedication and them patience.

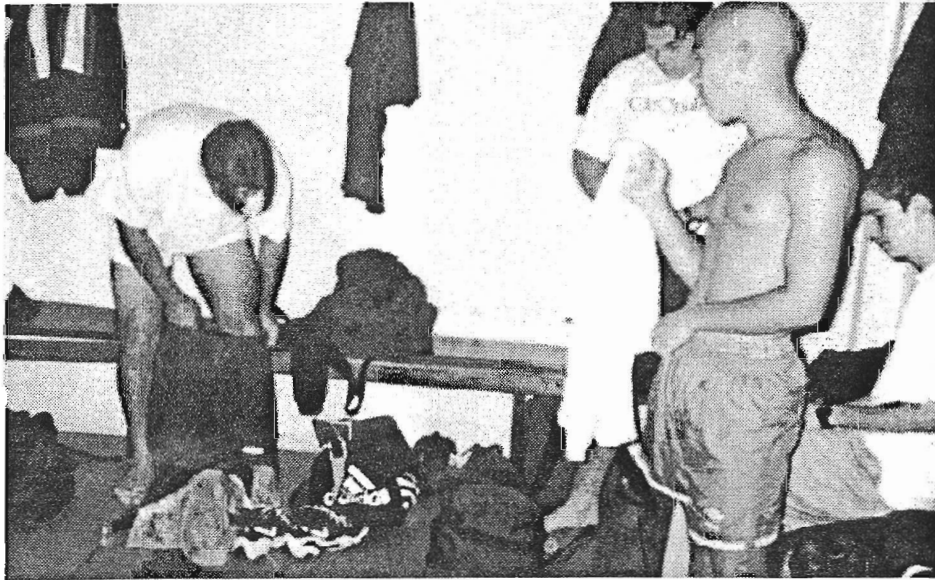

Remember that God reward your work and dedication, more if you do it with the hearth and love.

Thanks for all

Generation 98

The naked true about strippers in the class

We have a special report of strippers in the class. We are going to talk with two of them, to protect their own identities we don't will use their real names, so we use their artistic names, they are "Menotti and Chelo" Rodríguez.

This twin brothers have seventeen years old and have two years working in the night club "eleven one" (have no relation with this newspaper). As they tell us their parent don't know about their work as strippers.

"Menotti and Chelo" said that they start working in the night club because they need money, but they don't want to do big jobs, and also want the

money quickly so they become strippers.

They said that be stripper is a dangerous work because in one time when they were dancing together one man came for nowhere and start to shooting because his boy friend put a buck in Menotti's bikini.

Their act consist in dance and take off the clothes, they work six hours at night making over €6000 per night plus that the persons give to them. "Chelo and

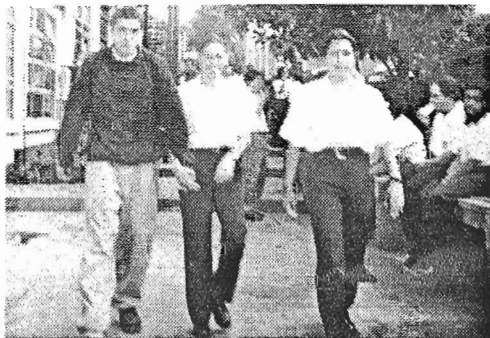

Menotti" also dance in private parties, bachelors parties, express stripping, and others, just call to ARYORA0 or AF11UXU and they will appear immediately.

Also in Christmas they do a social work doing their act in all persons house totally free.

In couple is best

Adriana-n-Ronny

In a 5 of may, Ronny saw a beautiful girl (player of soccer) that is new the high school and fall in love with her. From that moment on she fell in love with him too and start a great relationship.

They only have like 3 months but it seems like they have a lot of years together. Nothing will separate them only if God wanted too, but nothing else. He fell to us that he will married her when he finished his career and they will name be Joel. They told us that they don't have more words to express their love. From all the generations, this couple is unique of everyone everyone God bless you.

Sophie-n-Geovanni

There was a time in 6 grade when one boy named Geovanni fall in love with a blown girl named Sophie. They had a excited romance in the paradise. It was in the past, they said to us, but you know, when in a place fire their interests. And now after six years of false romance with another persons they come back. I don't but what do you think? I think that Sophies always love Geova and she was waiting just for the best time to decelerate her love again and Geova after a lot but a lot of romance with girls like Elsie, Su Richmond, Mariela, Diana Hernández, etc. Realize that his trap with Sophie and now this couple have change, their are closely together and now we see that exciting love that we see in 6 grade. This will go in serious!! Go on.

Cristina-n-Gustavo

This two child get on fire a 9 of April but first we got the antecedents.

Tavo, a great student was haven some kind of affair with a girl but with time he saw in Cris the wife of his life and happen what everybody know. Their are haven a great love and something that really help them is that they both live in the same place. They see each other every day, every hour, every minute, every second, in another way we can say that they both live in same house. The most beautiful girl and the president of hour class will together forever, that is what they say to us and we the only thing that we say to them is that good luck in the future.

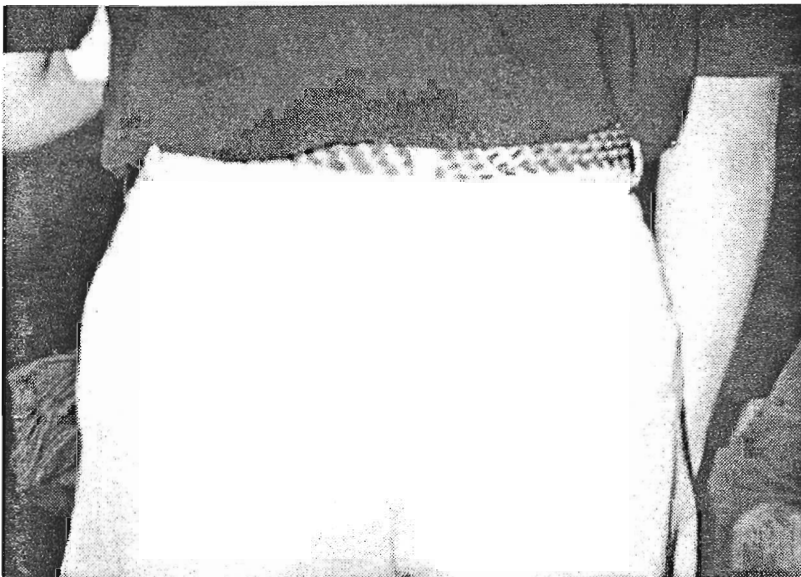

Guess who are them?

Look very carefully those butts. Maybe you know who are those girls; if not, we are going to give some clues to know who are the rest of those butts.

The two girls are classmates of the eleven one (have no relation with this newspaper) people, and all the guys of the group like to admire those phenomenon.

Since primary, those girls accompany us in our generation, and since those years to ours days, they have a very nice evolution.

One of those girls is a Chinese girl that came from Cambodia, because in this country the woman don't use bikinis, and see don't fell sexy. So, she came to Costa Rica to buy the hot tangas of

the Machetazo. She eats a lot, but she have a problem: she doesn't turn fat. (We think that the fatness go down to her buttocks) In the interview, she told us that her buttocks came from desendence of her mom, that she don't do exercises to maintain the size of her butt and that size is 93 centimeters.

The other girl have Caribbean blood but we can't talk about herself,

because she fell uncomfortable about the people talk about he qualities. Sincerely, we don't want to hurt her feelings, so, we only are going to tell that she has a great body, a nice face and a wonderful butt.

Those two girls are a very special classmates with grate feelings and nice personalities, and we love them lot.

The best team of the world

This is the team of the eleven one (have no relation with this newspaper), the best in the planet, because have extraordinary players like "Roberto Carlos", "Chilavert", "Zinedine Zirane", "Ronaldo" and other important players.

In 10 grade we had a different matches Vs 10-2 (actual 11-2), 10-3 (actual 11-3) and a Christian church team, of Moravia.

That team won five games and loose two games: one Vs 10-2 and other Vs 11-3. This thing express the high average in the last year.

In the new year we didn't play with any team because we have so much jobs in the high school and don't have time to play with other teams.

For this season we have changes in the structure of the line start: Andres Salvo (chume) went to a Australian team,

Alexander Alvarado (Nahamán, Bendi, etc.) have some study problems and Jorge Jiménez is a special boy; but now we get a new excellent player named Gabriel Corella that have good characteristics, his position is in the middle and play very good in that position.

The team almost have the superstars like "Chilavert", "Ronaldo" and "Zirane" that represent a very important support of the team.

This squad is also the best in the Monterrey High School and have a very good player named Sebastián Rivera D.
